

Impact Aid Program Survey Form

The survey date is August 17, 2011

The federal government does not pay property tax. Because property tax provides a significant amount of funding, Impact Aid helps local school districts recover some of these lost funds. It is based, in part, on the number of children with parents working on federally owned properties (for example the Veterans Hospitals or the Federal Prison); and the number of children with parents in the military (full time or active). **Completing this form will help the district get additional funds from the federal government at no cost to you.** Please complete all information if the parent or guardian is working on federal property or is in the military full time on the survey date, August 17, 2011. **Thank you.**
