

**Greetings from Mr. Johnson and Mrs. McGrath, your Building Assessment Coordinators,**

This document is meant to help you prepare your scholar for taking the MAP Growth test. Please mark the following dates in your calendar to provide support for your scholar:

**MAP Practice for Chromebook:** Monday, September 14th 8:25 - 8:55 am  
**MAP Reading Test:** Thursday, September 17th starting at 8:25 am  
**MAP Math Test:** Friday, September 18th starting at 8:25 am.

## What is MAP Growth?

MAP Growth helps teachers understand what students know today, so goals can be set to improve growth throughout the year. Students cannot pass or fail this test.

The test does not affect their grade. In fact, it's normal for students to only answer about half the questions correctly. Please don't help them!

Given the challenges of learning from home, MAP Growth test results are especially helpful for us this year. These results will help us know what students are ready to learn.

## Test Preparation - Very Important!

### Prior to Test Day

1. Watch the MAP Growth [introduction video](#)
2. Disable pop-up blocking on your internet browser [How-to Instructions](#)
3. Make sure your device meets testing requirements using the [Workstation Diagnostic Tool](#)
4. Mrs. McGrath will speak to scholars on Thursday, September 10th at 8:25 am during their Academic Leadership class about MAP testing.
5. We will hold a Practice Test session on Monday, September 14th at 8:25 am with their MAP Zoom links and Testing Links in their Academic Leadership Canvas class to make sure chromebooks are in working order and they can navigate the testing site.

### On Test Days: Thurs. 9/17 & Fri. 9/18

1. Minimize distractions for your child as much as possible.
2. We recommend a breakfast beforehand and a quiet testing environment.
3. The teacher will need to open the session first
4. Go to your Academic Leadership/Advisory Canvas Course and find the MAP Zoom Link (different from your regular link) and the Test link at [test.mapnwea.org](https://test.mapnwea.org).
5. Turn off your mics and video during the testing. You can communicate with your teacher during the test using the Zoom chat ONLY if you have any technical issues.
6. Follow any additional instructions from the teacher in Zoom.
