Economics in Education

- The mission of Fayette County Public Schools is to create a collaborative community that ensures all students achieve at high levels and graduate prepared to excel in a global society.
- We believe that how we spend the money entrusted to us is important to the economic development of our community and state.
- Economics in Education is a program that recognizes that great schools and strong businesses create strong communities.
- We currently have 28 schools in HUBZones. The economic development of these areas are important for the children and families that live there.
