

Your trusted student loan consultants

About Us

By leveraging our industry-leading expertise, GoDoc Consultants enables employees to successfully navigate the multitude of US Department of Education federal student loan repayment abatement and forgiveness programs.

GoDoc Consultants helps employees and their family members with federal student loans identify, maximize, enroll and recertify into the programs for which they best qualify. With program maximization and proper compliance GoDoc Consultants is saving eligible loan holders as much as 80% on their student loans.

Our mission is twofold:

1) To be your employee's trusted student loan consultants. We don't win unless your employee wins.

2) To help employers offer cost-effective student loan benefits that will significantly impact their employees' financial wellness while having little to no impact on the employer's budget.

Contact Us

Our consultants will meet with your employees either through our online platform and/or through our call center. We will answer all questions and explain everything they need to know to make the best decision.

Our Process

Our process is designed to educate federal student loan holders about their personal student loan environment. By conducting a free, no obligation forensic analysis of the employee's student loan debt and opportunities, our consultants can identify both potential savings and the next steps. If they choose to utilize our services, we will take it from there.

Every Step of The Way

Once enrolled in the program, we take all of the heavy lifting off your employee's plate. Our prime objective is to keep their case file in regulatory compliance with US Department of Education guidelines. We're so sure about our work that we offer a 100% money back guarantee* if the enrolled program terms are less than the terms given from our consultant's forensic analysis. We mean what we say, every step of the way.

Student Loan Debt Realities!

45 Million
student loan borrowers.

\$1.6 Trillion
in student loan debt.

25%
of borrowers are in default or delinquency in 2020.

*Contingent upon the eligible loan holder providing all necessary information accurately, honestly and in a timely manner.
