Fall Break Shutdown

SMALL CHANGES BIG DIFFERENCE

If we all pitch in, it's easy to make a **BIG** difference. Join us to reduce electricity consumption by 360,000+ kilowatt-hours!

Equivalent to:

\$36,000 savings

281 tons of carbon dioxide reduction

55 cars off the road for a year

4,219 tree seedling growth for 10 years

Want statistics of your school's participation? Share this link with your faculty and staff.

What a difference!

Before you leave:

- Clean out, unplug, and prop doors open to **personal** refrigerators where possible. This is not feasible if your personal refrigerator has a freezer unit.
- Turn off interior lights in your area.
- Turn off/unplug personal appliances (microwaves, lamps, space heaters, fans, etc.)
- Shut down computers/projectors.
- Close blinds/window shades.
- Remove warm appliances directly underneath of or within 2 feet of your thermostat.
- Portables: set the cooling to a minimum of 74 degrees (80 recommended).
