

CEP schools only!! SAMPLE BLURB/NEWSLETTER CLIP FOR CEP INFO

Great News!! Our school, along with over half of Fayette County Public Schools, will be a CEP (Community Eligibility Provision) site for the 2020-21 school year. This means all students enrolled at these CEP schools will be able to receive a healthy breakfast and lunch meal for FREE on days that school is in session!!!

*Please visit: <https://www.fcps.net/food> for new updates on how to collect meals when students are attending NTI/distance learning.

** The number of Free/Reduced eligible students will still be collected by submitting an Educational Benefits Form to determine additional funding/resources that your child and the school could receive (books, additional staff/teachers, classroom furniture, and much more). Support our school now by completing the application online: <http://bit.ly/FCPSEBF> !

We Need YOU!

Every year, your family receives either a *Free or Reduced-price Meal Application or an Educational Benefits Form (at CEP schools)*. It is important to fill this out for two reasons:

1. The application lets officials determine if your child is eligible for free or reduced-price school meals/benefits. Children from families that earn below a certain income level can receive free or reduced price lunch and breakfast at school. CEP schools provide free meals regardless, but there are additional benefits your child could receive when qualifying for a free or reduced eligibility. *They could also be eligible for additional food resources when schools cannot be open for in-person learning (As we have recently experienced during the COVID-19 Pandemic).*
2. The number of Free/Reduced eligible students are also collected to determine funding that schools could receive for resources for the students (books, additional staff/teachers, classroom furniture, and much more).

The application/form is conveniently online, private & secure, and easy to fill out. Support our school today by completing this online now! If you have any questions, feel free to contact the Child Nutrition Office at (859) 381-3846.
