

2009-10 Traffic Patterns

Safety is our highest priority at PLD. Your cooperation with these traffic flow revisions will help us make our whole community safer.

1. Persons responsible for dropping off students will simply turn in main entrance, make the 1st left turn into the parking lot and straight through the middle aisle. (Cave Hill is for exiting traffic only.)
 - 2a. Vehicles exiting toward Harrodsburg Rd. should drop passengers in the aisle to the right in the student parking section. Vehicles should then exit to Man o' War via Cave Hill Lane.
 - 2b. Vehicles exiting toward Versailles Rd. should drop passengers in the middle aisle of the student parking section, turn left at the back of the parking lot and return to the main exit via the aisle nearest Man o' War.
- o Vehicles waiting to pick up students at dismissal should enter the lot through the middle aisle and come back through the outer aisles facing the exit. Please fill the aisles from Point A back toward Point B and C in double lines as needed.

Thanks for your continued support of PLD.
