

Mrs. Lisa Norton

Child Guidance Specialist

About Mrs. Norton

Hello! It is my pleasure to be the Child Guidance Specialist here at Squires Elementary School. I often tell my students that Squires is like my home because I spend just as much time, if not more, with my school family than I do my own.

I am entering my eighteenth year as a Squires Stallion. I have an undergraduate degree from the University of KY and a Masters of Social Work from Campbellsville University. I grew up in Lexington not far from this area and I pride myself on knowing the families and neighborhood quite well. My son, who is a sophomore in high school, attended Squires from K-5th grade and the teachers here prepared him for the rigorous studies that he is pursuing at Henry Clay. I firmly believe that it takes an entire community to make a child successful and that is what sets this school apart.

Your child deserves an environment where he/she feels safe to learn and try new things. My goal is to teach my students the skills it takes to become compassionate, self-aware students that will demonstrate confidence in the face of adversity and spread kindness in the world. I look forward to working with each and every one of you!

Kindly,

Lisa Norton
