

Academic Plan For Students

How to schedule your courses for the next academic year through Infinite Campus's academic planner.

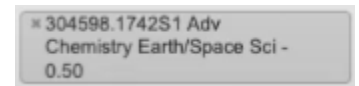

1. Login to [Infinite Campus](#) and navigate to **Academic Plan**
2. Click the **Next** button to view your 4 year academic plan

3. Find your grade level for the next academic school year by looking for the first non-grayed out column.

4. Add your courses in the appropriate cells.
 - a. Courses with the Lock symbol can't be removed
 - b. Courses with the "x" can be removed; however, be careful as you might have to contact your counselor in order to add these courses back after you remove them.

5. You will want to keep adding courses in all sections until the number in the numerator (top of the fraction) is the same as the number in the denominator (bottom of the fraction). Most likely, you will add courses to the **Elective** and **Alternates** sections.
6. In the **Alternates** section, at the bottom of the page, you will want your alternates in order of preference. Use the up and down arrows to the right of the courses name to reorder the courses to your desired ordering.
7. When you are finished adding courses don't forget to press the **Save** button in the top left corner of your screen.
