

SYMPHONY SNOWBALL CHALLENGE

Competition January 7th-February 15th

Are you ready for another class challenge?

We will be tracking [total points](#) in Symphony for the class competition. Mr. Hovekamp and Ms. Thompson will total the points at the end of each week and post the weekly progress outside of Ms. Thompson's office. We will also send a weekly email updating teams about your progress in the competition. We will also track [total tasks](#) completed for the whole competition for the individual competition.

We will host a "snowball fight" for the winning class from each grade level at the end of the competition! Give your best effort to earn points in Symphony for your team and complete tasks (problems) in Symphony for the individual competition as well! The individual winner from each grade level will have McDonald's lunch with Ms. Thompson and Ms. Puckett.

We look forward to throwing "snowballs" with the earners of the highest number of points as a team!

To look at points for the class, you can access the Awards tab in the Admin Panel > Awards > Points. Don't forget to change the date range (upper right corner) to see an accurate depiction of each week. To see a child's total tasks completed, Admin Panel > Use and Progress > Date Range > Total Tasks.
