

Important Information for All Parents, Student Athletes, Middle School, and High School Athletic Departments:

Beginning in the fall of 2022, the sports of girls' basketball and girls' volleyball will switch seasons. Girls' basketball will be played as a fall sport and girls' volleyball will be played as a winter sport. This is being done to better align the sports with the high school seasons, to increase participation, and to allow more young girls the opportunity participate in both sports at both the middle school and high school levels, as well as align both seasons with the majority of the rest of the state.

Student athletes in both sports wishing to participate at both the middle school level and the high school level will no longer have to participate at both levels during the same season. Middle school girls' basketball will be played **before** high school girls' basketball. Middle school girls' volleyball will be played **after** high school girls' volleyball.
