Procedures for assuring that instructional technology that is correlated with the curriculum is implemented throughout the school and program evaluation measures are in place.

PURPOSE

The purpose of this policy is to ensure the quality of each program within the school.

POLICY

The Kentucky Department of education recommends the following:

- Sustained analysis of whether each of our programs is contributing adequately to helping all our students meet state standards.
- Systematic work to improve those programs around a unified set of goals so that we do meet state standards for all students.
- Ongoing monitoring and evaluation of the implementation and impact of our programs.

We will implement that process, including appraisal of the effectiveness of all our programs, through needs assessment and implementation and impact checks.
