

Policy 3.8.0

**Policy on Procedures on State Standards, Technology, and Program Appraisal**

To determine alignment with state standards, the council each year will assign one or more teams to conduct a thorough review of the school's CATS score and shall use information from that review to develop the school's Comprehensive School Improvement Plan. (CSIP)

To determine use of technology, the council shall each year assign one or more teams to recommend appropriate technological approaches to address each priority need in the CSIP.

To appraise the quality of our programs, the council at the end of each year shall review the observed results of each SCIP component. In addition, the review of test scores each year will help us to identify priority needs for future attention.
