- Development and adherence to access control measures for each school building;

- Establishment of primary and secondary evacuation routes which must be posted in each room by each doorway used for evacuation;
- Identification of severe weather safe zones that have been reviewed by the fire marshal/fire chief, which must be posted in each room;
- Practices for students to follow in an earthquake;
- Practices for students to follow in case of fire that are consistent with administrative regulations of the Department of Housing, Building and Construction and school board policies;
- Procedures for lockdown of the building and campus. Local law enforcement shall be invited to assist in establishing lockdown procedures;
- Maintain complete nondisclosure and confidentiality of the school-centered emergency management plan (not subject to Open Records request (KRS 158.162))

Annual Review and Plan Distribution

- The emergency plan shall be annually reviewed at the end of each school year by the school council, the principal and first responders and shall be revised as needed.
- Prior to the first instructional day of school, the principal, or designee, shall discuss the emergency plan with all school staff. Documentation, including the time and date of the discussion will be kept on file at the school with a copy sent to the district office to document completion. Documentation may include methods such as a sign-in sheet that includes the printed name of each staff member, the signature of the staff member and the date and time discussed.
- Annually, the principal is responsible for working with the central office to ensure that all local first responders have a current diagram of the school that notes the primary and secondary evacuation routes, the severe weather safe zones and notations of the exterior and front entrance access points.
- Documentation of this distribution to first responders will be reported to the council, maintained in the principal's office and a copy sent to the district office.

Trainings and Drills

The school shall conduct, at a minimum, emergency response drills including:

- One severe weather drill, and again during the month of January;
- One earthquake drill, and again during the month of January;
- One lockdown drill within the first thirty instructional days of each school year and again during the month of January.

All drills shall follow, at a minimum, all local school board policies. Whenever possible, first responders shall be given notice of possible drills and invited to observe.

The principal is responsible for ensuring the implementation of these drills and reporting completion and problems noted during the drill to the district central office for any remedial action needed.
