Summit Learning is going great. All students have done well in the program. C. Luhman showed committee data of completion in each grade for summit this year. We are excited for next year when all students will be working with summit across the board.

C. Luhman presented the LTMS Discipline data to the committee.

A team of teachers from LTMS will be going to missouri for more professional learning and communities at work.L. Caudill is going to boston to a conference. 2 teachers will be going to Summit training in Minneapolis. New teachers will be trained in Louisville for Summit. Fayette County is putting on a teaching and learning conference.

Monday was a great success! Staff read from plc's and got a head start on looking at data for our incoming kids for the next year.

The district has selected to adopt Amplified Science for our Science textbook. We want to use this resource to help as a supplemental resource. District will pay for the textbooks. Amplified has more hands on activities and they also supply the supplies. C. Watson made a motion to approve and B. Spitz second.
