

March News

This Month in our Classroom

This month in 4th grade we will continue to work on fractions. In fractions we have been adding and subtracting. We will move forward into word problems involving fractions. Then we will dive into fractional and decimal relationships.

In reading we will continue to work on text structures and describing those within a text.

This month we will celebrate Dr. Seuss' birthday with Read Across America week.

Please Remember

- Complete homework daily
- Practice multiplication facts
- Read each night at least 20 minutes.

Important Dates

Read Across America week:
March 2-6

Spring break starts: March 30-
April 3
