

# VLA PBIS NEWS

February 2021

## What is PBIS, anyway?

Positive Behavior Intervention and Support is a school-wide approach to building a positive school culture and climate. Using the PBIS framework, schools develop a continuum of evidence-based practices for developing and implementing school-wide expectations and acknowledgments. The VLA team has begun the process of building the PBIS system for the Virtual Learning Academy. As we continue through this school year, you can expect to be hearing more about the exciting work this team is doing!

## Calling all parents!

Parents are an important part of the PBIS system. We need your voice on the committee as we work to create the PBIS system for the VLA! Any parent interested in serving, please [click here](#) to fill out the interest form. Filling out the form doesn't mean you're committed - we will send out more information next month to all parents who are interested.

# Club News

VLA Clubs will be starting soon! For more information and to sign up for clubs, [click here](#)

## Elementary School

# Teacher Spotlight

Ms. Laura Duffy teaches third grade. She has a Bachelor's in English from Baldwin-Wallace University, an Elementary Education Certificate from Asbury University, and a Masters in Education with K-12 Literacy Certificate from Georgetown College.

"I love teaching at VLA because of the wonderful students from all around Lexington that I get to teach. Each of my students brings a fun and unique perspective to our classroom, and together we enjoy learning and sharing together."
